DORI

FINAL IDENTITY SYSTEM

DORI

Private Israel Journeys

Discover Our Roots in Israel

Approved production direction - September 2026

01

MASTER IDENTITY

Subtraction, precision and consistency

DORI

Private Israel Journeys

Discover Our Roots in Israel

PRIMARY WORDMARK

Editorial DORI wordmark. Custom letterform remains exclusive to the logo.

DORI

Private Israel Journeys

Discover Our Roots in Israel

DORI MONOGRAM - MASTER

The definitive approved monogram. The internal gesture remains abstract: passage, continuity and discovery may be felt, not illustrated.

DORI

Private Israel Journeys

Discover Our Roots in Israel

PRIMARY LOCKUP

DORI

Private Israel Journeys

Discover Our Roots in Israel

FULL / INTRODUCTORY LOCKUP

02

COLOUR SYSTEM

Sumac leads; Amber supports

Ink
#252B2A
Foundation / primary type

Warm Chalk
#F3EFE6
Foundation / backgrounds

Za'atar
#667054
Supporting natural colour

Sumac
#934A3A
Primary accent

Amber
#C07A2E
Secondary luminous accent

COLOR ROLE

Sumac carries the principal emotional accent: grounded, culturally rich and mature. Amber remains available for light, invitation and selective interaction. Citrus is not part of the approved core palette.

PRIMARY / SUMAC

ONE-COLOR

Discover Our Roots in Israel

Private Israel Journeys

Discover Our Roots in Israel

APPROVED ROLE

SECONDARY BRAND DEVICE. Use selectively in brand introductions, itinerary openings and editorial storytelling. Do not force the colored initials into every occurrence of the phrase; the sentence must remain natural in one color.

Exact phrase **Discover Our Roots in Israel**

04

SUPPORTING TYPOGRAPHY

Functional typography stays separate from the custom logo

Aa

IBM Plex Sans

Headlines, UI, body copy, documents, email and digital interfaces.

RTL

IBM Plex Sans Hebrew

Specified bilingual supporting family for Hebrew. Font binaries are intentionally not included in the deliverable kit.

RULE

Do not recreate ordinary text in the custom DORI editorial letterform. Its distinctiveness depends on remaining exclusive to the identity.

05

MASTER MARK AT MICRO SIZES

No alternate geometry introduced

DORI MONOGRAM - MASTER

DORI

Private Israel Journeys

Discover Our Roots in Israel

REAL RASTER TEST: 16 / 24 / 32 / 48 / 64 PX

Result: the approved master retains a recognizable D silhouette and internal separation at 16-24 px in this production test. A separate micro mark is therefore NOT generated. If a future rendering stack causes pixel closure, the only permitted response is a separately labeled DORI MONOGRAM - MICRO OPTICAL VERSION with minor optical corrections.

DIGITAL IDENTITY KIT

Google Workspace, mobile and interface use

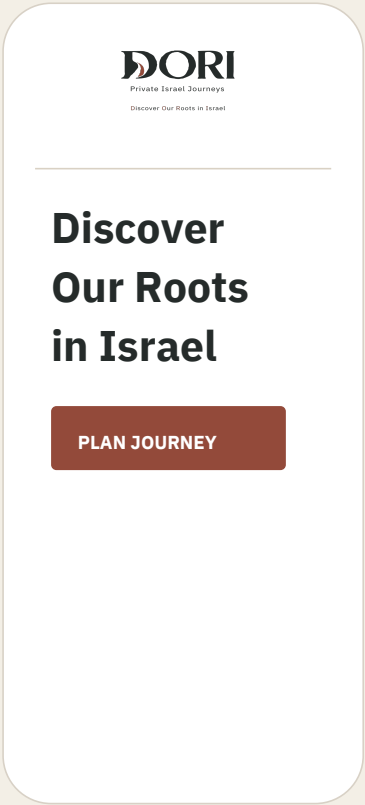

GOOGLE PROFILE / 512 X 512

DORI

Private Israel Journeys

Discover Our Roots in Israel

DOCUMENT / HEADER LOCKUP

Official Google account UI supports upload/crop of a profile image; Google Workspace Directory API thumbnails are downscaled to 96 x 96 px. DORI export recommendation: supply a 512 x 512 square with generous circular-crop safe area.

07

EMAIL + FAVICON

Branding remains compact and functional

STANDARD EMAIL LOGO - 400 X 100 PNG

COMPACT WORDMARK

16 24 32 48 64

Gmail official guidance recommends signature images approximately 70-100 px high by 300-400 px wide, with a maximum of 100 px high by 1000 px wide. The standard DORI Gmail asset is therefore 400 x 100 px. Contact details should remain live text, never baked into the logo image.

08

IDENTITY RESTRAINT

What the system intentionally does not add

NO LITERAL ROOTS	Rootedness is carried by story, content, sequencing and experience.
NO GENERIC ISRAEL ICONS	No maps, skyline, olive branch, Star of David or travel pictograms in the master identity.
NO FLAME / LEAF EXPLANATION	The internal gesture remains intentionally ambiguous and intrinsic to the D.
NO SILENT MICRO SUBSTITUTE	The master remains definitive; any future optical version is explicitly labeled.
NO CITRUS CORE ROLE	Citrus is removed from the approved core palette.

09

PRODUCTION SOURCE CONTROL

Approved references translated into deliverables

ELEMENT	APPROVED VERSION	PRODUCTION ACTION	STATUS
D monogram	Preferred close-up master geometry	Reconstructed as vector paths	PASS WITH NOTE
DORI wordmark	Current editorial construction	Vector paths; Sumac accent	PASS WITH NOTE
Descriptor	Private Israel Journeys	IBM Plex Sans path lettering	PASS
Brand line	Discover Our Roots in Israel	Balanced Sumac initial reveal	PASS
Primary accent	Sumac #934A3A	Primary full-color accent	PASS
Secondary accent	Amber #C07A2E	Supporting only	PASS
Favicon	Master mark	16-256 px + ICO	PASS
Micro mark	Conditional only	Not required by current raster test	PASS

Source limitation: the approved identity was supplied as raster concept references rather than original vector masters. The reconstruction was carefully isolated and validated against those references, but an original designer vector file remains the highest-fidelity source if one later becomes available.

10

DELIVERABLES

Production kit structure

01 01_MASTER_LOGOS - monogram, wordmark, approved lockups

02 02_COLOR_VARIANTS - primary, Ink, White, one-color

03 03_GOOGLE_WORKSPACE - profile, Gmail, Docs, Slides

04 04_EMAIL_SIGNATURE - standard, compact, Retina

05 05_FAVICON - PNG 16/24/32/48/64/128/256 + ICO

06 06_WEB - SVG + transparent PNG

07 07_PRINT - SVG + high-resolution PNG/JPG

08 08_MICRO_MARK - test result / no alternate geometry created

09 09_SUPPORTING_BRAND_ELEMENTS - restraint note; no unapproved symbol

10 10_BRAND_BOOK - this final PDF

The asset manifest CSV at the kit root records filename, format, color version, dimensions, background, intended use and master/derivative status.
